

# Scheck capabilities

For more than 20 years, Scheck has gained valuable experience from providing services to customers coast to coast. Our expertise means we'll do your job right. The Scheck companies provide services in every facet of the mechanical industry through our vast service territory.

Our mechanical services include power and process piping installation; pipe, sheet metal and vessel fabrication; mechanical

equipment erection; outage and turnaround specialists; commercial HVAC installations; plumbing; fire protection; construction management; general contracting; plant maintenance; and mechanical service.

Technical services include instrumentation installations; calibration; loop checks; start up and commissioning; preventive maintenance; staff enhancement; and innovative solutions implementations.
