

chemical & petrochemical

“The construction went much smoother because of the trust that developed between the people of Degussa and Scheck.”

–Ron Choiniere, Engineering Supervisor, Degussa

While working with companies such as Amoco Chemicals, Sun Chemical, Akzo Nobel, Degussa and Union Carbide Corp., Scheck has built a solid reputation of success in the chemical and petrochemical industry.

Our experienced and reputable staff members know the special technical and safety requirements necessary in these facilities, and they stringently apply this knowledge to every project.

Our solutions will ensure your project is cost effective and completed on time with premium quality work – whether it's a new construction project, renovation work or planned and emergency shutdowns.
