Complete Client Satisfaction

Scheck Industrial Corporation is a fully integrated turnkey industrial contractor offering a full range of nationwide capital construction capabilities. Our long successful track record with the world's most sophisticated projects and comprehensive plant retrofits, allows us to proudly deliver Complete Client Satisfaction by providing safe and successful projects at heavy industrial plants across the country.

Scheck Industrial Corporation is one of the fastest growing contractors in America with the added benefit of specializing in boiler construction, repair, and maintenance.

Scheck Industrial's veteran project teams are well-known throughout the heavy industrial construction sector as detail-oriented managers with field tested expertise in project management, construction management, small and large project planning, budgeting, scheduling and the implementation of trade teaming strategies.

The Keys to Innovation and Safety – Choose Scheck

- ▲ Highly skilled workforce consistently providing top quality project execution for our clients
- ▲ Experienced management and staff maximize production and minimize project risk
- ▲ Project teams are cross-trained to work in multiple market segments giving our organization flexibility to resource project specific challenges
- ▲ Project teams have coordinated oversight from senior leadership of each of our

Companies, all of whom have had extensive field and trade experience

- ▲ Continuous construction process improvement shared by collective experience from site personnel and project supervision
- ▲ National labor relations network providing national workforce of quality craft and supervision personnel to projects
- ▲ Proactive Risk Management through **ScheckTrac**, our automated real-time productivity and project site cost control program

Heavy Industrial Markets

-  Project Management & EPC Support

One of our Diversified Areas of Construction Expertise

Specialty Boiler Services

Critical shutdown environments are the specialty of our Boiler Services Business Unit. We are prepared for planned outages as well as staffed for 24-hour emergency service and repairs.

Capabilities:

- ▲ Boiler Erection and Repair
- ▲ Power Boilers
- ▲ HRSG's
- ▲ Fluidized Beds
- ▲ Waste to Energy
- ▲ Package Boilers
- ▲ Power Plant Appurtenances
- ▲ Fans
- ▲ Ductwork, Breeching, and Stacks
- ▲ Air Heaters
- ▲ Soot Blowers and Piping
- ▲ Coal Mills and Fuel Piping
- ▲ Power Piping
- ▲ Burners
- ▲ Pressure Vessels and Tanks
- ▲ Condensers
- ▲ Feed Water Heaters
- ▲ Air Quality Control Systems
- ▲ Electrostatic Precipitators
- ▲ Bag Houses
- ▲ Low Nox Burners
- ▲ Wet Scrubbers
- ▲ SCR's

Complete Client Satisfaction is the result of a comprehensive and diversified portfolio of successful industrial projects and our track record undeniably supports our Company wide objective.

Long term clients across the country come back to us year after year because they know our track record for precisely estimating project costs, supplying skilled trade craft, and managing complex construction to ultimately reduce execution risk for our valued clients.

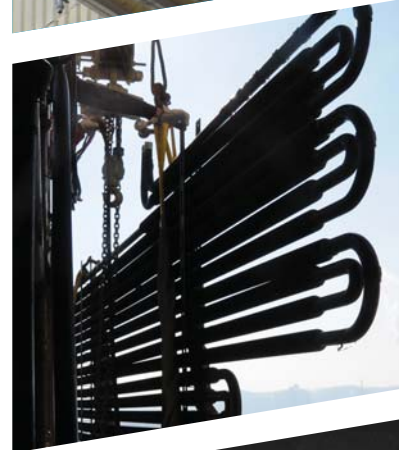

Field Tested Leadership and Project Management

Our senior management and field supervisory teams are comprised mainly of trades people with advanced education, training and experience in specialized industrial construction.

Our management resources are fully integrated. Project Teams have cross-trained across all our national market segments giving our organization flexibility to source and provide innovative solutions to project-specific challenges.

The Scheck Advantage

- ▲ Experienced best-in-class project teams
- ▲ Experience yields knowledge in key areas such as: cost estimating with extensive database, planning, capable trade craft, and field tested management
- ▲ Experience creates the platform to integrate formal and practical field education into new ground-up processes and retrofit projects
- ▲ Experience provides assurances of successful results key to client satisfaction
- ▲ Expertise in all areas of Industrial Construction

Scheck Trade Craft Network

Over the course of three decades of successful projects in over 30 States, Scheck Industries has developed a National Labor Relations network providing high performance labor resources in challenging and sometimes remote jurisdictions throughout the country. Collectively, the Scheck Companies typically employ over 1,500 crafts people annually with total work hours exceeding 1.5 million. These crafts include:

- ▲ Boilermakers
- ▲ Certified Welders
- ▲ Pipe Fitters
- ▲ Instrument Technicians
- ▲ Millwrights
- ▲ Laborers
- ▲ Iron Workers
- ▲ Plumbers
- ▲ Operators
- ▲ Carpenters

Possessing multi-disciplined construction capabilities while working in diversified markets we have a premier work force with national recall of over 2,000 certified welders, 8,000 pipefitters, 600 boilermakers, 1,500 instrument technicians and a compliment of supervisory personnel to complete capital and maintenance projects. By combining our well-seasoned supervisors and support staff, coupled with innovative project management tools and cost controls, we excel by increasing productivity while reducing overall costs.

Affiliations and Tradecraft Highlights

- ▲ Annually hire over 1,500 crafts people
- ▲ Board Affiliations Multiple Boilermaker Locals
- ▲ Employed pipefitters and welders from over 61 UA locals in the U.S. and Canada
- ▲ National Labor Relations with United Association of Plumbers and Pipefitters (U.A.), International Brotherhood of Electrical Workers (I.B.E.W.), Millwrights, Iron Workers and Boilermakers
- ▲ Board Affiliation Instrument Contracting and Engineering Association
- ▲ Board Affiliations with NMA Policy Committee
- ▲ Board Affiliation TAUC Legislative Committee
- ▲ Board Affiliation MCA
- ▲ Multiple Regional Labor Affiliations

planning & project control

Scheck Industries developed its own Internet-based remote time entry and cost tracking system that is fully integrated with our Earned Value Management System. Named **ScheckTrac**, this system is the result of 25 years of management enhancement aimed at exceeding our own needs and those of our clients.

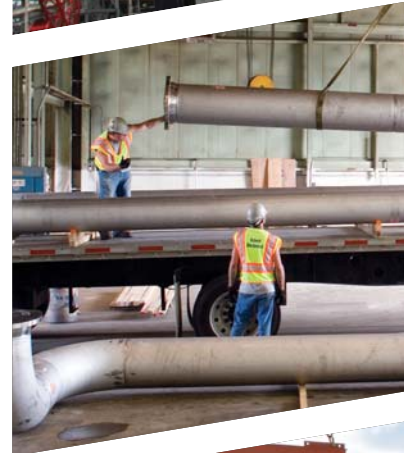

ScheckTrac has evolved into a multi-faceted cost accounting and project controls system, providing Scheck and its clients with real time cost tracking, seamless one time payroll entry, state of the art productivity tracking, absentee analysis and other customized data tracking capabilities. **ScheckTrac** can integrate electronically with virtually any Windows compatible software. As a web based solution, **ScheckTrac** provides our clients with instant access to critical information

required to manage comprehensive cost and time sensitive projects. Project performance measurement is accomplished through strict work processes including our **ScheckTrac** Commercial Control and Tracking System which provides objective quality data throughout a project's life cycle.

ScheckTrac – Project Control System

Construction Pre-Planning and Scheduling

- ▲ Focused Project Execution
- ▲ Effective Management and Control Processes
- ▲ Insightful Reporting
- ▲ Aggressive Team Building
- ▲ Computerized Project Control Systems
- ▲ Project Pre-Planning

The screenshot displays the ScheckTrac software interface. On the left is a navigation menu with buttons for Home, Company/Client, Setup, Employee Setup, Equipment, Purchase Orders, Expenses, Daily Entry, Track Progress, Reports, Export, Standard Forms, and System Settings. The main window shows a data entry form for Job Number 011155210, Work Date 2/8/2011, and Week Ending 2/13/2011. Below this is a table with columns for Employee Name, Type, Task ID, Absent, Task / Subtask, ST, OT, and DT. The table lists employees like Izzo, Joe and Jakubek, Casey. A 'Scheck TRAC' logo is visible in the bottom left of the interface. Several smaller inset windows show different parts of the software, including a 'User Card Entry' screen and a detailed data table.

complete client satisfaction

Innovative Industrial Solutions

Scheck Industries has developed a customized project management platform with real time control processes for all its projects.

Corporate Resources

- ▲ Regional Offices throughout the country
- ▲ Database of over 12,000 skilled crafts people from multiple trade disciplines
 - ▲ 8,000 Pipefitters
 - ▲ 2,000 Welders
 - ▲ 1,500 Instrument Technicians
 - ▲ 600 Boilermakers

Diversified Growth

The organization has grown by reputation and repeat business, providing its customers, the world's largest EPCs and many of the Fortune 500 Companies, the economies of scale with multi-jurisdictional labor sourcing.

“Your weekly communication on progress and detail by job were the best we have ever seen. The timeliness and accuracy in your cost tracking allowed us to accomplish more maintenance in the boiler than originally planned while staying on budget.”

Robert Meiners
